SUMMARY

Dynamic and passionate **React Developer** with extensive experience in building robust **web** and **mobile** applications using **ReactJS, React Native, Redux Toolkit, JavaScript, HTML, CSS, and modern development frameworks**. Proficient in front-end development principles and committed to delivering high-quality, responsive, and user-centric designs that enhance performance and usability. A collaborative team player with a proven ability to create seamless user experiences across web and mobile platforms, driving innovation and efficiency in every project.

SKILLS

- React JS
- React Native
- Javascript
- Redux
- HTML & CSS
- Tailwind CSS
- Bootstrap
- MUI & ANTD
- React Hook Forms
- Node JS (Basics)
- MYSQL(Basics)
- Git Control
- Responsive Web Design
- Webpack & Babel
- Problem Solving
- JSEST
- Debugging
- SASS

EDUCATION

- Bachelor Degree in Electrical And Electronics Engineering
- Gokul Institute of Technology and Sciences
- CGPA : 63.96

CERTIFICATIONS

- MERN Stack Developer in CCBP
NXTWAVE

WORK EXPERIENCE

- **Adiverse Technologies LLP, Hyderabad** 2022 DEC - PRESENT
React Web & Native Developer
 - Developed web applications utilizing **ReactJS, Redux Toolkit, JavaScript, React Native,HTML, and CSS**.
 - Employed **React Bootstrap, Material UI (MUI),ANTD** and other contemporary web development frameworks.
 - Implemented **user authentication** and **authorization** to guarantee secure access to web applications.
 - implemented Git version control system to streamline code management within the development team, resulting in a 50% reduction in code conflicts and enhancing collaboration across 5 key projects.
 - Conducted comprehensive testing with tools like Postman to validate API functionality and performance.
- **Purpleplum,Hyderabad** 2021 DEC -2022 NOV
Web Developer
 - Created an **Expense management application** designed to track, categorize, and visualize financial information, incorporating dynamic charts and intuitive interfaces for effortless expense monitoring.
 - Employed **ReactJS, JavaScript, Bootstrap, HTML, and CSS** to develop scalable and responsive web applications.Engaged in code reviews, offering constructive feedback to improve code quality, maintainability, and compliance with best practices.

PROJECTS

- Developed a comprehensive web-based **Examination Management Tool** for leading universities, employing **ReactJS for web interfaces and React Native for Android applications**. This tool simplifies exam scheduling, grading, and student performance tracking, ensuring a smooth user experience on both web and mobile platforms.
 - Created an extensive web-based **NIRF framework** for top universities, facilitating effective management and analysis of college ranking performance metrics. Utilized ReactJS and JavaScript to design dynamic, responsive, and user-friendly interfaces that enhance data visualization and reporting.
 - Designed and implemented a robust **ERP solution** for educational institutions, integrating modules for student information, faculty management, payroll, inventory, and financial systems. Leveraged **ReactJS, JavaScript, HTML, CSS, and Redux** to create intuitive front-end interfaces, improving operational efficiency and user satisfaction.
 - Built responsive and user-friendly front-end interfaces using ReactJS, HTML, CSS, and JavaScript, improving the overall user experience.
 - Developed **RESTful APIs** for web applications, ensuring secure data communication and seamless integration with back-end services.
 - Integrated APIs and online payment gateways such as **Razorpay and PhonePe** for efficient transaction processes.
- Leveraged **ChatGPT, Gemini AI, and Google Maps** to enhance communication and system functionality, enabling intelligent assistance and location-based services.
